

**FY2026 R&D Resource
Allocation Workbook**

Loblolly Ridge Therapeutics

Effective date	2026-09-10
Purpose	Planned versus actual FTE by function and program for Q1-Q3 2026; supports quarterly resource discussions.
Coverage	See each dataset dictionary and summary. Missing numeric values are excluded, not zero.
Summary interpretation	Descriptive statistics of selected records only. Totals of percentages and adjustment values are not operating KPIs.
Introduction	Quarterly FTE plan versus estimated actual allocation for R&D functions in 2026, updated after the August close. Use it to see how internal staff time is spread across programs; it does not track individual time.
What the data covers	264 records: 11 R&D functions by 8 cost objects by quarter for Q1, Q2 and Q3 2026. Cost objects are LRT-1107, LRT-2240, LRT-3318 alliance, LRT-4051, Discovery, Platform & lab, Portfolio & G&A support, and Unassigned/vacancy.
What the data covers	Q3 actual estimates cover July and August only; function heads had not yet returned September estimates when this update was prepared.
How FTE is estimated	Function heads and Portfolio & Program Management agree planned allocations each quarter. Actuals are the function heads' estimates of how their teams spent time, because Loblolly Ridge has no timesheet system. Open positions are planned against the Unassigned/vacancy line until filled.
How FTE is estimated	Finance allocates personnel cost to cost objects from these estimates, so personnel cost by program is an allocation, not a tracked actual.
Q3 2026 plan	The Q3 plan allocates 93 R&D FTE: LRT-1107 33.3, Discovery 26.0, LRT-4051 13.5, Platform & lab 6.2, LRT-2240 5.4, Portfolio & G&A support 5.1 and LRT-3318 alliance 3.5. The other 35 of the company's 128 employees sit outside the eleven R&D functions and are not in this workbook.
Vacancies	Vacancies averaged 4 FTE in Q1 2026 and were filled by Q3, so the Unassigned/vacancy line is zero in the Q3 plan.
Reading the Summary	Variance is actual minus planned. The Summary adds all three quarters together, so its FTE totals are about three times a single quarter; divide by three for a quarterly average, or filter the data sheet by quarter.
Not in this update	Named individual allocations, contractors and the Q4 2026 plan, which will follow with the October quarterly update.

Dataset	Measure	Unit	Total	Mean	Records	Period start	Period end
FTE allocation plan and actual	planned_fte	FTE				2026-01-01	2026-08-31
				278.00	1.05	264
