

Unit Census and Discharge
Timing Extract, February-
August 2026

Tallowbrook Health

Effective date	2026-09-08
Purpose	Provide daily unit-level census, discharges, discharge timing and boarding hours for both hospitals.
Coverage	See each dataset dictionary and summary. Missing numeric values are excluded, not zero.
Summary interpretation	Descriptive statistics of selected records only. Totals of percentages and adjustment values are not operating KPIs.
Introduction	Daily unit-level records for the 12 staffed inpatient units at Tallowbrook Medical Center West and Hospital Fort Bend, February 1 through August 31, 2026. Prepared by Decision Support from the EHR ADT and bed management data loaded to the data warehouse. Extracted September 8, 2026.
Contents	One row per unit per day (12 units x 212 days). Summary and Dictionary sheets are generated with the extract.
Coverage	Complete: every staffed inpatient unit and every calendar day in the window. Emergency departments, PACU and observation areas outside inpatient units are not included.
Coverage	The pilot units in the West Capacity & Patient Flow Program are MCW Telemetry, MCW 4 West Med-Surg and MCW 5 West Med-Surg; the pilot started March 2, 2026.
Definitions and cautions	Midnight census includes observation patients occupying inpatient beds, so census-days are higher than inpatient patient days in the facility activity series.
Definitions and cautions	Discharges are discharges from the hospital from that unit, including observation discharges; transfers between units are not counted as discharges.
Definitions and cautions	Discharges before 11 uses the EHR discharge time, not the time the room was cleaned.
Definitions and cautions	ED boarding hours run from the admission order to the time the patient left the ED and are attributed to the destination unit.
Definitions and cautions	Staffed beds is the daily staffed count; summing it gives staffed bed-days.

Dataset	Measure	Unit	Total	Mean	Records	Period start	Period end
Unit Census and Discharge Timing	midnight_census	patients				2026-02-01	2026-08-31
