

Perioperative Committee — FY2026 Block Utilization Review

Quarterly block review, FY2026 Q4 and full year. Perioperative committee, July 22, 2026. Medical Center West and Hospital Fort Bend; the Surgery Center Grand Parkway is reported separately.

Scope and definitions

Utilization is in-block minutes used divided by allocated minutes minus minutes released on time (policy PS-210). Review threshold: below 70% for two consecutive quarters.

Period: July 2025 to June 2026

11 service blocks: 7 at West, 4 at Fort Bend

FY2026 at a glance

Medical Center West: 78.8% utilization; 9.7% of allocated time released on schedule

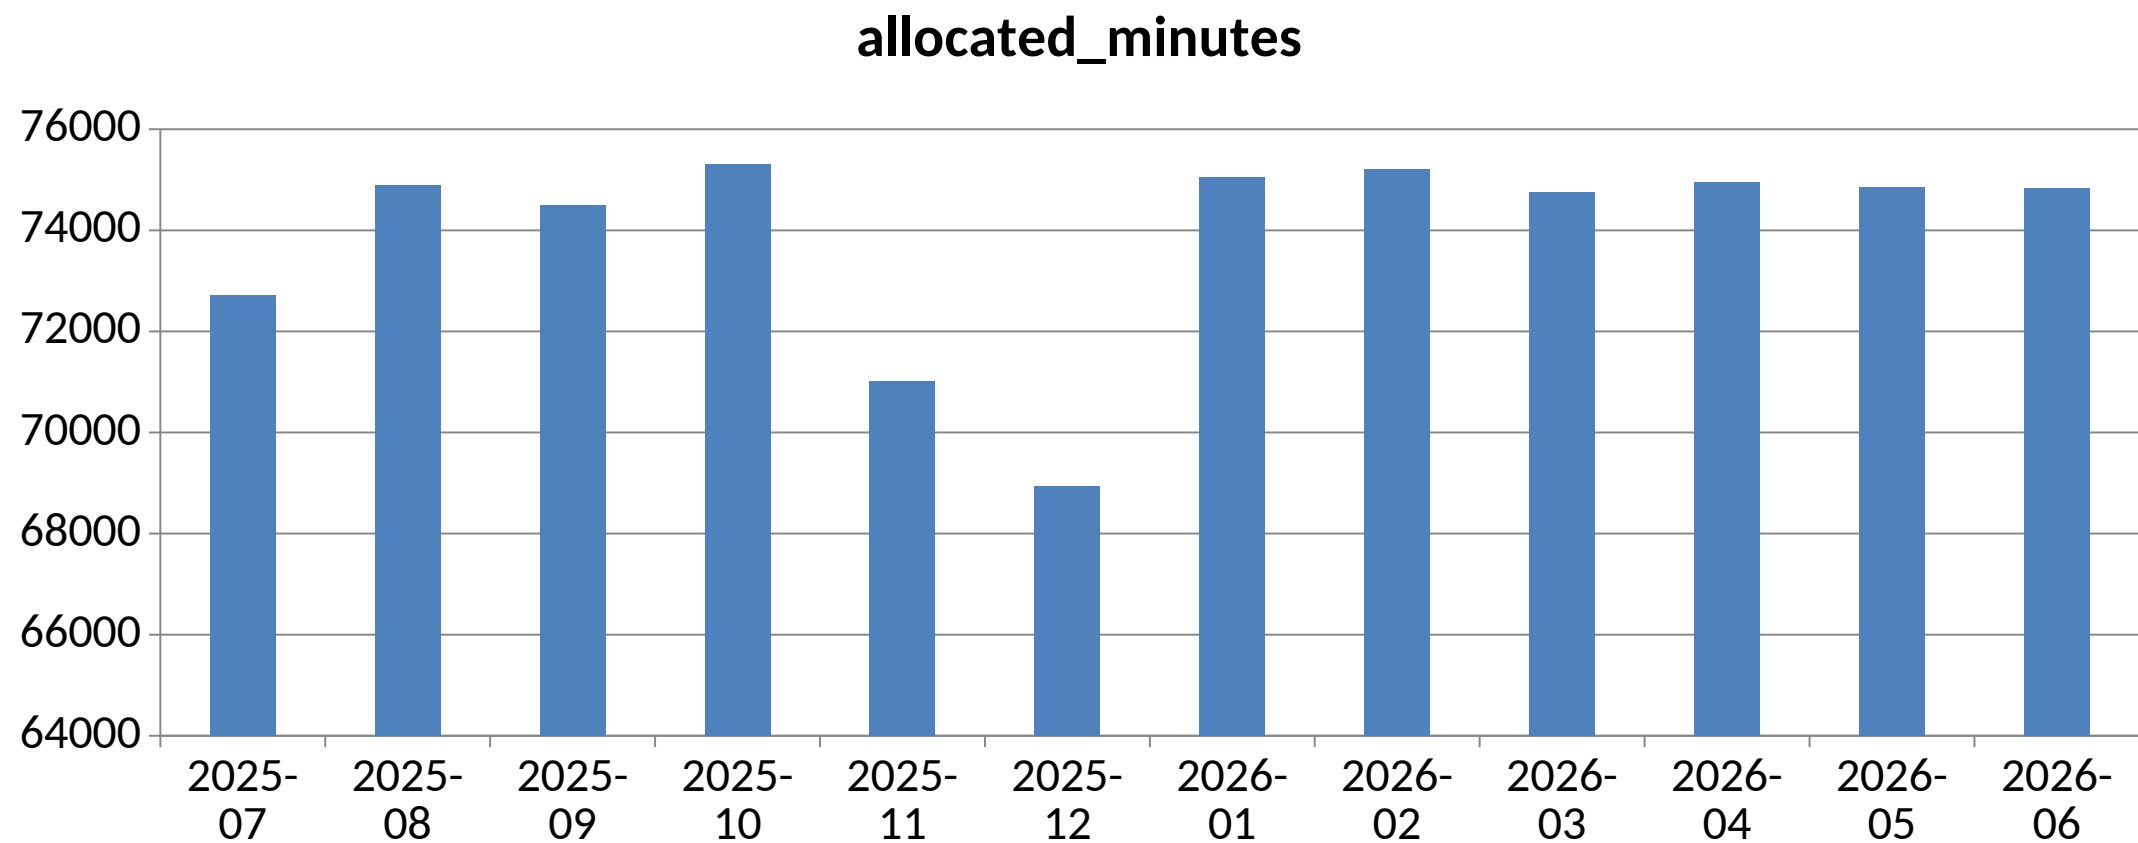

Hospital Fort Bend: 78.2% utilization; 10.2% released

Released time was rebooked through open time in most weeks

Allocated block minutes by month

Total allocated minutes, both hospitals. November and December are lower because of holiday closures.

Allocated block minutes by month • minutes

Services above target

Fort Bend Orthopedics 90.2%, above 88% every quarter

West Orthopedics 85.5%

West General Surgery 81.2%

West Spine 77.3%, West Urology 76.5%, West Vascular 73.4%, Fort Bend Urology 72.1%

Services below the 70% threshold

West ENT: 63.9% for the year; 65.2%, 64.7%, 62.6%, 63.2% by quarter

Fort Bend General Surgery: 66.7%; 66.7%, 65.9%, 66.2%, 68.0%

Fort Bend Gynecology: 69.5%; 71.4%, then 69.0%, 68.5%, 69.3%

West Gynecology was 71.8%, just above the threshold

Discussion for the committee

Move Fort Bend General Surgery time to Fort Bend Orthopedics?

Convert part of the West ENT allocation to open time?

Fort Bend Gynecology: act now or wait one more quarter, given a surgeon on leave in Q3?

Proposals to be brought back in September with surgeon input
