

Summer Access Review — Imaging and Therapy

Outpatient access, June 1 to August 30, 2026. Ambulatory leadership review, September 9, 2026.
Prepared by Patient Access & Central Scheduling.

Summer at a glance

Pavilion: 90.6% of 16,763 offered slots booked; 92.2% of bookings completed

Stafford: 89.6% of 10,888 slots booked; 90.9% completed

Most imaging schedules have next-week availability

Two pressure points: Stafford MRI and therapy no-shows

Weekly slots offered

Template slots per week across all 11 schedules. The dip is the July 4 holiday week.

Weekly slots offered • slots

Pavilion

CT third-next-available about 2 days; ultrasound about 3

MRI filled 95% with third-next-available near 7 days

Mammography filled 86%: room for more screening

Infusion completed about 96% of bookings

Where access is tight

Stafford MRI booked 97.8% of slots. Third-next-available averaged 11.0 days in the first four weeks and 13.4 in the last four, reaching about 17 days in late August.

Stafford imaging volume grew 8.3% in FY2026

Referrers are asking for Pavilion MRI instead

Missed therapy visits

Therapy had the highest share of booked visits not completed: 12.1% for Pavilion PT/OT and 13.2% for Stafford PT, against 5% to 9% for imaging.

Therapy moved to central scheduling in November 2025

Automated reminders run at 72 and 24 hours; no call for therapy

Actions agreed

Saturday MRI hours at Stafford from September 12

Offer Pavilion MRI first when Stafford wait exceeds 10 days

Reminder calls two days before therapy visits

Re-check both measures at the December review
