

Contract Register

Tallowbrook Health

Effective date	2026-09-02
Purpose	List active supply and service agreements with supplier, category, agreement type, term and estimated annual value.
Coverage	See each dataset dictionary and summary. Missing numeric values are excluded, not zero.
Summary interpretation	Descriptive statistics of selected records only. Totals of percentages and adjustment values are not operating KPIs.
Introduction	Active supply and service agreements managed by Supply Chain Contracting, as of September 2, 2026. Maintained by the Manager, Contracting & Value Analysis. Estimated annual values are Supply Chain planning estimates used for renewal prioritization; they are not contract commitments.
Contents	One row per active agreement (120 rows) with supplier, spend category, agreement type, effective and expiration dates, estimated annual value and sourcing owner.
Coverage	Supply and purchased-service agreements used by Tallowbrook facilities, including agreements accessed through the group purchasing organization. Physician agreements, real estate leases and software licenses are managed by their owning departments and are not listed.
Definitions and cautions	GPO agreement: accessed through Tallowbrook's group purchasing membership; most run three years and renew on the GPO's calendar.
Definitions and cautions	Local agreement: negotiated directly by Tallowbrook where no GPO agreement fits.
Definitions and cautions	Service agreement: purchased services such as maintenance, reference laboratory, linen or food service, usually paid through blanket orders.
Definitions and cautions	Expiration date is the current term end. Agreements with automatic renewal show the current term only.
Definitions and cautions	Several suppliers hold more than one agreement; totals by supplier should be taken from all rows for that supplier.
