

RN Hours by Unit and Pay  
Period, July 2025–August  
2026

Tallowbrook Health

|                          |                                                                                                                                                                                                                                                                                                                                                         |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Effective date           | 2026-09-04                                                                                                                                                                                                                                                                                                                                              |
| Purpose                  | Provide planned and worked RN hours, overtime, float and agency hours by cost center and pay period.                                                                                                                                                                                                                                                    |
| Coverage                 | See each dataset dictionary and summary. Missing numeric values are excluded, not zero.                                                                                                                                                                                                                                                                 |
| Summary interpretation   | Descriptive statistics of selected records only. Totals of percentages and adjustment values are not operating KPIs.                                                                                                                                                                                                                                    |
| Introduction             | Registered nurse hours for the 12 staffed inpatient units and both emergency departments, by biweekly pay period, from the pay period beginning July 6, 2025 through the period ending August 29, 2026. Prepared by the Central Staffing Office from the workforce scheduling and timekeeping system as loaded to the EDW. Extracted September 4, 2026. |
| Contents                 | One row per cost center per pay period (14 cost centers x 30 pay periods = 420 rows). Pay periods start on Sunday and run 14 days.                                                                                                                                                                                                                      |
| Coverage                 | All inpatient units and emergency departments at Medical Center West and Hospital Fort Bend. Outpatient sites, perioperative areas, the Surgery Center Grand Parkway and non-RN roles are not included.                                                                                                                                                 |
| Definitions and cautions | Planned RN hours are the official staffing grids (census, acuity and skill mix by shift) applied to the actual census for each shift, not a budget figure.                                                                                                                                                                                              |
| Definitions and cautions | Worked RN hours include all sources. Overtime, float pool and agency hours are each a subset of worked hours; a float pool hour paid at an overtime rate is counted in both columns.                                                                                                                                                                    |
| Definitions and cautions | Variance hours = worked minus planned. A positive value means more hours were worked than the grid called for.                                                                                                                                                                                                                                          |
| Definitions and cautions | Float pool hours are charged to the unit where the nurse worked. The Central Staffing Office began managing the float pool and twice-daily balancing at Medical Center West in late October 2025.                                                                                                                                                       |
| Definitions and cautions | Late punches and pay corrections post in the following period; the last two periods may change slightly after the next payroll close.                                                                                                                                                                                                                   |
