

**Operational Reporting
Catalog**

Tallowbrook Health

Effective date	2026-09-11
Purpose	List recurring operational reports and dashboards with owners, sources, refresh and known limitations.
Coverage	See each dataset dictionary and summary. Missing numeric values are excluded, not zero.
Summary interpretation	Descriptive statistics of selected records only. Totals of percentages and adjustment values are not operating KPIs.
Introduction	Recurring operational reports and dashboards maintained or distributed by Decision Support & Operational Reporting, as of September 11, 2026. Maintained by Priya Raman, Director. Use this catalog to find the owner, sources, refresh timing and known limitations of a report before relying on it.
Contents	One row per report or dashboard (34 rows): catalog code, name, subject area, business owner, source systems, refresh or distribution frequency, primary audience, delivery format and known limitations.
Coverage	Reports that Decision Support builds, maintains or distributes, including a few produced by departments from their own systems and distributed through Decision Support. Ad hoc analyses, financial statements and quality registry submissions are not listed.
How to read the catalog	Pulse dashboard: published on the Pulse portal from the EDW. Most refresh nightly; staffing dashboards refresh after each pay period closes.
How to read the catalog	Excel, PDF and PowerPoint items are scheduled extracts or packages, usually emailed to a distribution list.
How to read the catalog	A report generated from a live source system rather than the EDW is noted in the limitations column; its figures can differ from EDW-based reports for the same day.
How to read the catalog	Metrics follow the Operational Metric Definitions Standard unless the limitations column says otherwise.
How to read the catalog	Refresh frequency is how often the data changes, not how often the report is reviewed.

Dataset	Measure	Unit	Total	Mean	Records	Period start	Period end
Operational Reporting Catalog	Row count	records				2026-01-01	2026-09-11
					34
