

2026 O&M Budget and
Actuals by Department

Sedgewater Energy Holdings

Effective date	2026-09-14
Purpose	Show 2026 O&M budget by month and element with actuals through August.
Coverage	See each dataset dictionary and summary. Missing numeric values are excluded, not zero.
Summary interpretation	Descriptive statistics of selected records only. Totals of percentages and adjustment values are not operating KPIs.
Introduction	2026 O&M workbook after the August close, prepared by FP&A for department heads and the CFO. It holds the phased budget and actuals by department, cost element and month, and the full-year budget and September forecast.
Sheets	Data 1 - monthly budget and actual by department and cost element, January to August 2026.
Sheets	Data 2 - full-year budget, September forecast, January-August budget and January-August actual by department and cost element.
Sheets	Summary - formula totals of each numeric column.
Headline figures	2026 O&M budget \$541 million. January to August: budget \$356.0 million, actual \$364.5 million, \$8.5 million over. Full-year forecast \$556 million.
Largest variances to August	Distribution Operations +\$4.4 million; Vegetation Management +\$3.1 million; IT and OT -\$1.2 million; Customer and Market Operations +\$0.9 million. The Vegetation Management budget for the year is \$31.4 million.
Forecast drivers	The forecast is above budget mainly because of vegetation unit costs, contractor rates in Distribution Operations, and outside legal and consulting costs for regulatory filings.
Notes	O&M actuals exclude storm restoration costs recorded as regulatory assets. The June 2026 Allocations line for Finance, Regulatory and Legal is negative (-\$0.3 million) because of an allocation true-up.

Dataset	Measure	Unit	Total	Mean	Records	Period start	Period end
