

Distribution Operations Monthly Review: August 2026

Distribution Operations monthly review, August 2026. Safety, reliability, work backlog, crew hours, contractors and materials. Work-order figures are from the Bayou and Crossroads extract; Harbor and Prairie summaries are in the speaker notes.

Safety

January-August: 27 employee recordables (9 DART), TRIR 1.53; contractors 34 recordables. Heat: mandatory rest breaks at a heat index of 103 degrees and cooling trailers at district yards since August.

Reliability

SAIDI 84.0 minutes and SAIFI 0.830 January-August, excluding major events; in line with 2025.

Work backlog (Bayou and Crossroads)

9,600 orders created January-August: 8,911 completed, 352 scheduled, 216 cancelled. Open: 87 awaiting material (71 transformer replacements, 9 poles, 7 small new services) and 34 awaiting an outage.

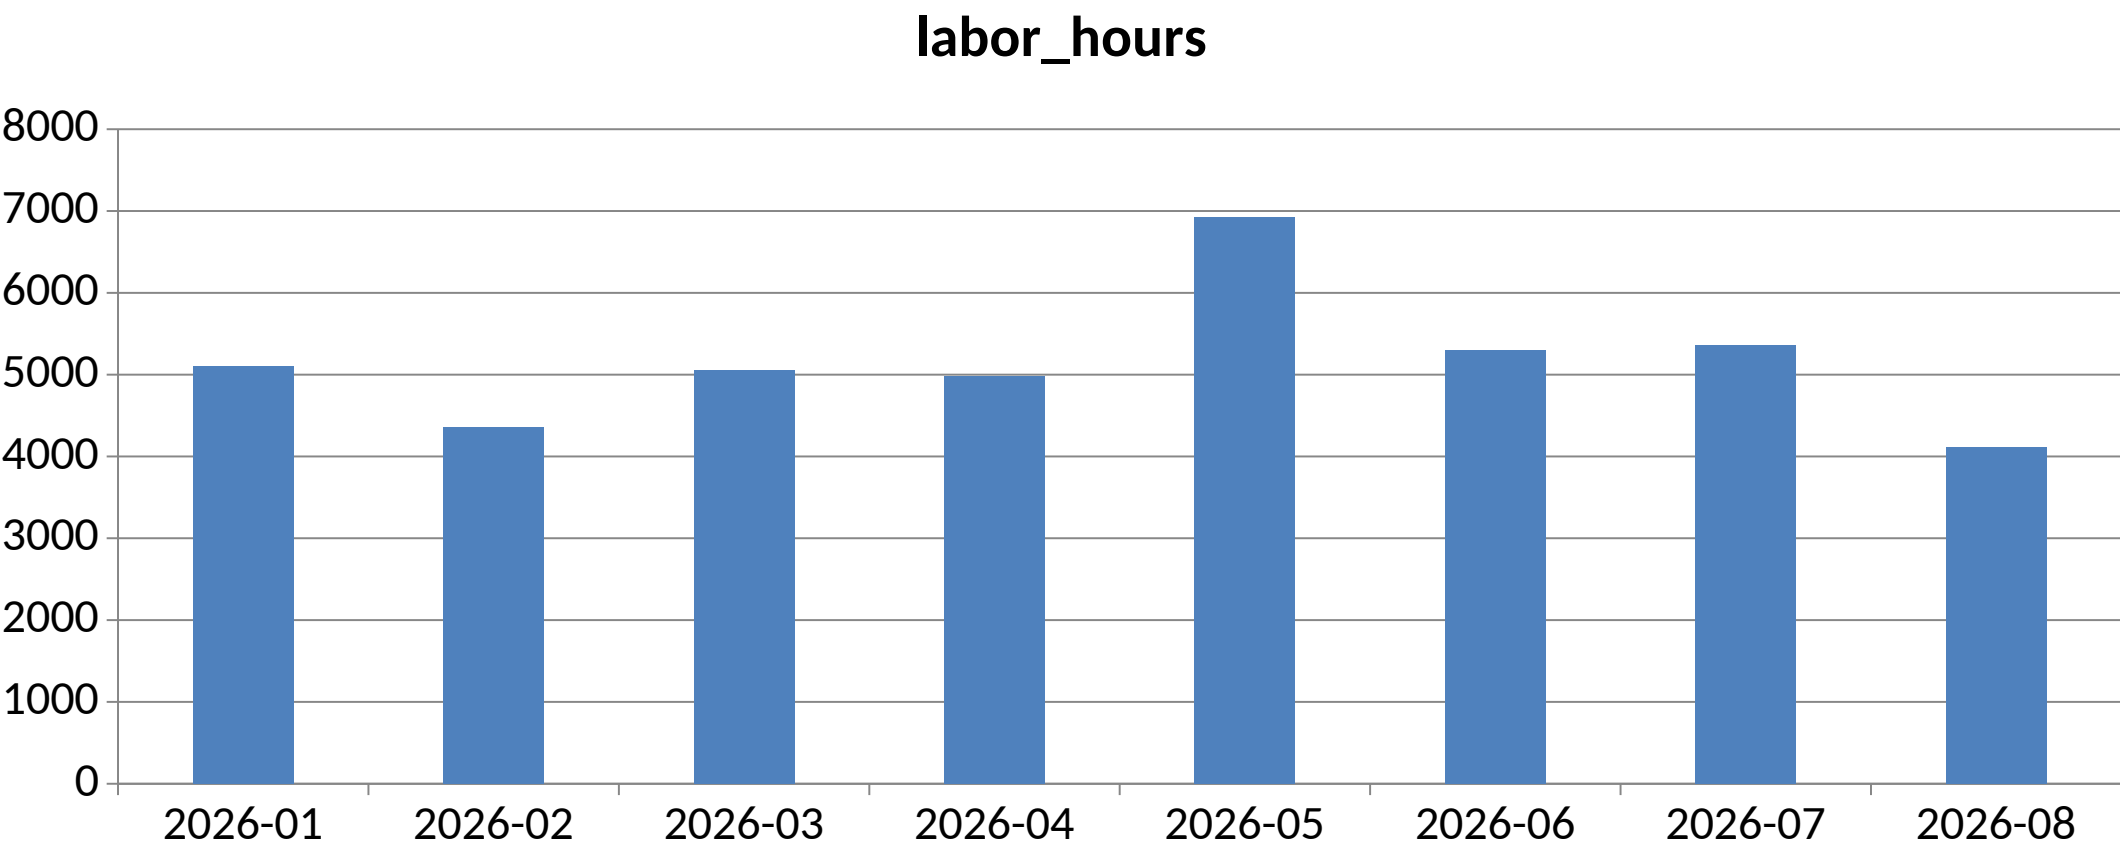

Time to complete

Median days created to completed: P1 0, P2 0, P3 7, P4 34.

Labor hours on work orders by month

Hours recorded on Bayou and Crossroads work orders, by month the order was created.

Labor hours on work orders by month • hours

Crew hours and overtime

35 weeks to August 31, all districts: 1,008,195 regular and 112,359 overtime hours (10.0%); 61,717 storm hours, 42,588 in the two weeks from May 18. Overtime share: Harbor 9.8%, Crossroads 10.2%, Bayou 9.9%, Prairie 10.2%.

Materials

Three pad-mount transformer sizes fell below reorder minimums in August; only storm reserve stock remains. Supply Chain memo circulated September 4.

Contractors and vegetation

420 releases authorizing \$492.7 million issued this year, including 26 storm releases (\$30.5 million) for May. Arrowboard Safety Services suspended June 15; work moved to Conecraft. Vegetation: 1,740.9 of 2,650 cycle miles and 188.6 of 330 acceleration miles done or in progress.

About this review

Monthly review of safety, reliability, work backlog, crew hours and overtime, contractor spend and materials constraints.
