

Gas System Inventory and
2026 Leak Survey Plan

Sedgewater Energy Holdings

Effective date	2026-09-10
Purpose	Provide main and service inventory by material and decade and the 2026 leak survey plan status.
Coverage	See each dataset dictionary and summary. Missing numeric values are excluded, not zero.
Summary interpretation	Descriptive statistics of selected records only. Totals of percentages and adjustment values are not operating KPIs.
Introduction	Workbook of the gas main and service inventory at December 31, 2025 and the leak survey areas with 2026 status at August 31, 2026. Prepared by Gas Engineering for the steel replacement review and survey planning.
Sheets	Data 1 - main miles, services and 2025 leak repairs by district, material and installation decade (year-end 2025).
Sheets	Data 2 - leak survey areas: survey type, main miles, last survey, next due date, 2026 plan flag and 2026 completion date.
Sheets	Summary - formula totals of each numeric column.
Different dates	The inventory is at December 31, 2025; the survey status is at August 31, 2026. Mileage replaced in 2026 is not yet reflected in the inventory.
Inventory	4,980 miles of main: polyethylene 3,720, coated and protected steel 1,172, unprotected steel 84 and other plastic 4, with 251,000 services. 914 leaks on mains and services were repaired in 2025. The unprotected steel program aims to remove it by the end of 2029; the 2026 target is 22 miles and 2,400 steel services.
2026 leak surveys	160 of 519 survey areas are scheduled for 2026. At August 31, 138 were complete (1,027.5 of 1,261.8 main miles), including all 70 business-district areas, and no area was past its due date.
2026 leak surveys	Business districts are surveyed every year, unprotected steel areas every three years and other areas every five years. Federal rules require business-district surveys at intervals not exceeding 15 months and at least once each calendar year, and other areas at least once every five calendar years at intervals not exceeding 63 months.

Dataset	Measure	Unit	Total	Mean	Records	Period start	Period end
Gas mains and services by district, material and decade (2025-12-31)	main_miles	miles				2025-12-31	2025-12-31
				4,980.00	41.50	120
