

Service Area and System Facts, 2026

Sedgewater Energy Holdings | Corporate Communications with Asset Management | 2026-09-01

Key facts about Sedgewater's service area and delivery systems for communities, developers and other stakeholders. Delivery points are at August 31, 2026; energy delivered is for calendar year 2025; gas figures are at December 31, 2025.

At a glance

684,930 metered electric delivery points at the end of August 2026.

25.1 TWh of electricity delivered in 2025.

436 distribution feeders from 102 substations.

About 290,400 distribution poles.

About 1,240 circuit miles of transmission lines.

262,300 gas customers and 4,980 miles of gas main.

Electric delivery points by district

Harbor 128,640; Crossroads 247,310; Bayou 204,760; Prairie 104,220. Residential points were 601,946, or 87.9% of the total; 38 points take service at transmission voltage, 34 of them in Harbor.

Delivery points grew 1.5% from August 2025 to August 2026, with 13,152 new service points connected in 2025 and 8,337 from January to August 2026.

Energy delivered

Energy delivered in 2025 was 25.1 TWh (25,100 GWh). Harbor, with its industrial and port loads, accounted for 48.2%.

Districts

The Coastal Plain service area has four districts. Harbor is a port and industrial corridor with dense older neighborhoods; Crossroads is the fastest-growing suburban district; Bayou has older low-lying suburbs with heavy tree canopy and flood exposure; Prairie is rural and exurban with long overhead feeders.

Electric system

436 feeders from 102 substations carry 8,860 overhead and 5,400 underground circuit miles; 38% of distribution circuit miles are underground. About 94% of our roughly 290,400 distribution poles are wood. The transmission system has about 1,240 circuit miles of 69 kV and 138 kV lines.

Natural gas

Sedgewater Gas Distribution served 262,300 customers at December 31, 2025: Crossroads 96,400, Bayou 117,800 and Prairie 48,100. The system had 4,980 miles of main - polyethylene 3,720, protected steel 1,172, unprotected steel 84 and other plastic 4 - and 251,000 services.

Retail electric providers

58 retail electric providers sell electricity to customers in our area. Customers choose their provider; Sedgewater delivers the electricity and restores outages.
